GLASS

Translucent
Printed

Bring the outdoors inside with LumiSky, a lighting fixture that replicates natural daylight through its regressed low iron glass, ensuring bright, even illumination without shadows. The high-resolution UV printing technology allows for limitless design possibilities, from cloudy skies to serene landscapes. LumiSky's consistent edge-to-edge lighting creates a stunning visual effect, and its 2' x 2' configuration makes it an easy addition to any interior design project, providing both functionality and aesthetic appeal.

LIGHTING ENGINES CCT
