

LightTex Media

LightTex Media is a high-performance textile fabric exclusively woven for Media Graph, designed specifically for Dye Sublimation-sublimation printing. Its advanced properties ensure maximum color vibrancy when backlit, making it ideal for SEG products. Wrinkle-free, lightweight, and durable, LightTex Media is perfect for a wide range of applications in public spaces.

Technical Information

PN	FAB-DY-DI-LTM-008
Characteristic	Indoor / Outdoor
Print	Dye Sublimation
Material	100% Polyester (70% recycled post-consumer polyester)
Dimension	3.2x100M
Weight (Sqm)	174g
Transmission	N/A
Cutting Method	Laser
Fire Classification	B1, NFPA-701
SEG Compatible	Yes

Advantages

- Wrinkle free.
- Lightweight nature simplifies transport and installation.
- Durable.

Applications

- Retail and commercial spaces
- corporate offices
- Hospitality and décor
- Exhibitions
- Public spaces and other environments.
